

ANNUAL STATISTICAL HIGHLIGHT

INMATES IN PRISON AND YOUNGSTERS DETAINED IN EDUCATIONAL CENTRES (2010 – 2021)

Characterization of the inmates in prison¹

In table 1 it is possible to observe that between 2010 and 2021 there has been a decrease of 0.2% in the **overall total of inmates** in prison (going from 11.613 in 2010 to 11.588 in 2021). However, this decrease is not constant, as there is a 29.8% increase in the number of female inmates and a 1.9% decrease in the number of male inmates. In 2021, when compared with the previous year, there was an increase of around 1.5% in the **overall total of inmates** in prison (going from 11.412 in 2020 to 11.588 in 2021), with an increase of 2.3% in the number of female inmates and of 1.5% in the number of male inmates.

Table 1 - Inmates in prison, by gender, 2010-2021

Table 2 shows the weight of the several **age groups** of the inmates in prison. The observed trend shows an increase in the groups from the age of 40 and a decrease in the remaining age groups. The inmates that are between 25 and 39 years old are the most representative category. This category shows a slight decrease in its weight, going from

51.2% to 42.6% of the overall total between 2010 and 2021, and of 44.0% to 42.6% of the overall total, between 2020 and 2021.

Table 2 - Inmates in prison, by age groups, 2010-2021

Table 3 - Inmates in prison, by education level, 2010-2021

There is a stable tendency as regards the distribution of the weight according to the **education level** (table 3), being the most representative category the one that corresponds to primary education with more than 74% of the total weight, in any of the years under consideration. Between 2010 and 2021 there has been a decrease in the weight of the categories corresponding to levels of education lower than secondary education, which together accounted for 86.6% of the total in 2010 and 81.8% in 2021. This slight decrease is in part compensated by an increase in the category corresponding to higher education, which represented 1.2% in 2010 and 2.9% in 2021.

On its part, the distribution of inmates in prison, by **type of crime**² (table 4) also points to a prison population with relatively stable characteristics over the period under analysis. In 2021, when compared to 2010, there has been a decrease of 3.6 percentage points in the number of inmates who committed crimes against property, of 2.5 percentage points in the number of inmates who committed drug-related crimes and of 0.6 percentage points in the number of inmates who committed other crimes.

Between 2020 and 2021, it should be noted the decrease of 0.9 percentage points in the number of inmates who committed drug related crimes.

Table 4 - Inmates in prison, by type of crime, 2010-2021

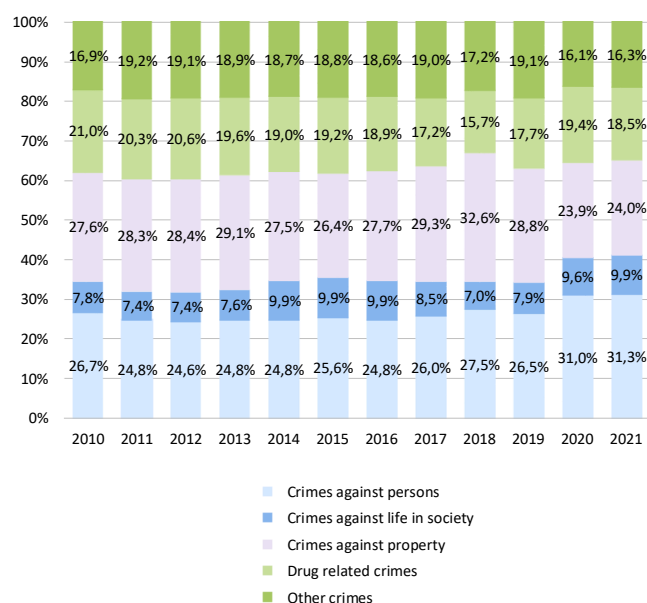

Table 5 - Youngsters detained in the educational centres, by gender, 2010-2021

Bearing in mind the **age groups** of the youngsters detained in the educational centres (**table 6**), there is an increasing trend of 5.2% in the weight of the age groups corresponding to ages equal to or less than 17 years, between 2010 and 2021. This increase is compensated by a decrease of 5.2 percentage points in the weight of the category corresponding to the age group of 18 and more years.

Characterization of youngsters in educational centres

Focusing on the **total number of youngsters detained in the educational centres** (**table 5**), it may be observed that, between 2010 and 2021, there was a decrease of around 48.7% (going from 226 in 2010 to 116 in 2021). This decrease is due to a 49.3% reduction in the number of young male detainees and a 43.5% reduction in the number of young female detainees.

Between 2020 and 2021, the overall total of youngsters detained in educational centres has registered an increase of 28.9%, due to an increase of 32.1% in the number of young male detainees and of 8.3% in the number of young female detainees.

Table 6 - Youngsters detained in the educational centres, by age groups, 2010-2021

As regards the distribution of the youngsters detained in the educational centres³, **by type of crime² (table 7)**, it may be observed that, between 2010 and 2021, there is an increase of 44.2 percentage points in the number of youngsters detained in educational centres, who have committed crimes against persons, which was largely compensated by a decrease of 40.1 percentage points in the number of youngsters detained who committed crimes against property. Between 2020 and 2021, there is a decrease of 4.4 percentage points in the number of youngsters detained who committed crimes against persons, and an increase of 6.5 percentage points in the number of youngsters who committed crimes against property.

Table 7 - Youngsters detained in the educational centres, by type of crime, 2010-2021

Footnotes

¹ It does not include the military inmates.

² In the Justice Statistical Data System (SIEJ) it is already possible to view, from 2013 onwards, the number of inmates convicted as of 31 December for “crimes against the State”. Nevertheless, in this analysis, one has chosen to consider them under “other crimes” so as to ensure the same historical series of previous years.

³ The numbers refer to the first crime registered in the procedure that originated the request for support to the enforcement of the confinement measure, not being guaranteed that it is the main crime. The youngsters detained in an educational centre on a weekend basis are not included due to its short duration.

Technical sheet:

The Directorate-General for Justice Policy (DGPJ) of the Ministry of Justice, in accordance with Article 2 (1) of Decree-Law 163/2012 of 31 July has the mission to give technical support within the scope of legislative production and legal assessment, to monitor the policies and the strategic planning for the sector, to coordinate the external affairs and the cooperation in the justice area, being also responsible for the statistical data in the Ministry of Justice.

The Law 22/2008 of 13 May defines the basic general guidelines and principles that govern the National Statistical System (SEN), particularly with regard to the delegation of powers of the National Statistical Institute (INE), in other entities.

Under the provisions of Article 24 of Law 22/2008, of 13 May, a protocol was celebrated empowering DGPJ with the production and dissemination of the Justice official statistics.

As a delegated entity, DGPJ is subject to compliance, in its relevant part, with the Law 22/2008, of 13 May, with the Decree-Law 166/2007, of 3 May, as well as with the rules established by Community legislation, adopting the Code of Conduct for European Statistics and the Regulation for the Application of the Principle of Statistical Confidentiality of the National Statistical Institute.
